REMARKS.

THE VIRGINIA MILITARY INSTITUTE was established, and is supported by the State of Virginia. An arsenal, containing 30,000 stand of arms, is located here, which was formerly guarded by a company of enlisted soldiers, at an annual expense of about \$6,000. In 1839, this appropriation was transferred to the support of a company of cadets, who, in addition to their duties as a guard, should also be placed under a course of instruction, upon the basis of the United States Military Academy at West Point. Upon this new system, the Institute has been in successful operation for 21 years. The cadets admitted consist of two classes, *State* and *Pay* cadets. The Institute supplies to the State cadet his board and tuition; and in consideration thereof, he is required to teach two years after graduation. The Pay cadet is at his own expense, which averages \$375 per year, for every charge, *including clothing*. The State cadets are selected from those who are unable to bear their own expenses. The Institution has always had as many pupils as its buildings would accommodate, and numbers *fifty* State and *one hundred and eighty* Pay Cadets. Applications are made, by letter, to the Superintendent prior to the first of July, each year, and appointments are made for both classes of cadets by the Board of Visitors, respect being had to their due apportionment among the several districts of the State.

When the vacancies in the Institute justify it, appointments are made from other States.

The Literary Fund of the State contributes \$1,500 per year to the Institute for the education of teachers, and the State has received tuition fees from the pay cadets to the amount of upwards of \$50,000 since its organization; which sum is applied to the increase of the number of State cadets, to the enlargement of the accommodations of the Institute, and to the support of a part of the corps of Professors.

The government of the Virginia Military Institute, although military in its organization, is carefully arranged for the protection and development of the moral character of the cadets. Attendance on the public services of the sanctuary and regular Bible instructions on the Sabbath are positively enjoined by the regulations.

The following extract from the Report of the Superintendent to the Board of Visitors, of June, 1859, will exhibit, in some degree, the influence of the moral government:

"There is no part of the duty of the Superintendent which weighs so heavily upon his mind and heart as that connected with the control and government of the moral conduct of those committed to his charge. No general idea of the wayward and depraved character of the human heart is at all equal to that which experience of the follies and vices of young men makes known to the conscientious teacher."

The great Head-Master of Rugby School gives utterance to his experience in the following striking language :

"Undoubtedly, this place, (Rugby School,) and other similar places, which receive us when we have quitted the State of childhood, and before our characters are formed in manhood, do partake somewhat of the character of the wilderness; and it is not unnatural that many should shrink back from them in fear. We see but too often the early beauty of the character sadly marred, its simplicity gone, its confidence chilled, its tenderness hardened. Where there was obedience, we find murmuring and self-will and pride. Where there was a true and blameless conversation, we find now something of falsehood, something of profaneness, something of impurity. I can well conceive what it must be to a parent to see his child return from school, for the first time, with the marks of this grievous change upon him. I can well conceive how bitterly he must regret having ever sent him to a place of so much danger; how fondly he must look back to the days of his early innocence. And if a parent feels thus, what must be our feelings, seeing that this evil has been wrought here? Are we not as those who, when pretending to give a wholesome draught, have mixed the cup with poison? How can we go on upholding a system, the effects of which appear to be so merely mischievous?"

My own experience but too painfully confirms these honest and truthful acknowledgements of Dr. Arnold; and I have no doubt the testimony from every school in our land, would, if honestly brought out, speak the same verdict. But this is only one side of the picture. Let Dr. Arnold present the other also, and show the results, as well as the encouragements, of faithful effort in leading the young through the wilderness which meets them on the threshold of academic life.

"Believe me," he says, "that such questions must and ought to present themselves to the mind of every thinking man who is concerned in the management of a school; and I do think that we could not answer them satisfactorily, that our work would, absolutely, be unendurable, if we did not bear in mind that our eyes should look forward, and not backward—if *we did not remember that the victory of fullen man is to be sought for, not in innocence, but in tried virtue.* Comparing only the state of a boy, after his first half-year or year at school, with his earlier state as a child, and our reflections on the evil of our system would be bitter indeed. But when we compare a boy's state, after his first half-year or year at school, with what it is afterwards; when we see the clouds again clearing off; when we find coarseness succeeded again by delicacy;

hardness and selfishness broken up, and giving place to affection and benevolence; murmuring and self-will exchanged for humility and self-denial; and the profane, or impure, or false tongue uttering again only words of truth and purity; and when we see that all these good things are now, by God's grace, rooted in the character; that they have been tried, and grown up amidst the trial; that the knowledge of evil has made them hate it the more, and be more aware of it—then we can look upon our calling with patience, and even with thankfulness. We see the wilderness has been gone through triumphantly, and its dangers have hardened and strengthened the traveller for all his remaining pilgrimage. For the truth is, that to the knowledge of good and evil are we born, and it must come upon us sooner or later. In the common course of things, it comes about that age with which we are here most concerned. I do not mean that there are not faults in early childhood—we know that there are; but we know also, that with the strength and rapid growth of boyhood, there is a far greater development of these faults, and, particularly, far less of that submissiveness which belonged naturally to the helplessness of mere childhood. I suppose that, by an extreme care, the period of childhood might be prolonged considerably; but still it must end, and the knowledge of good and evil, in its full force, must come. I believe that this must be. I believe that no care can prevent it, and that an extreme attempt at carefulness, while it could not keep off the disorder, would weaken the strength of the constitution to bear it.” * * * *

“Ignorance, absence of temptation, the presence of all good impressions, constitute much of the innocence of mere childhood—so beautiful while it lasts—so sure to be soon blighted. It is blighted in the first experience of life, most commonly when a boy first goes to school. Then his mere innocence, which indeed, he may be said to have worn rather instinctively than from choice, becomes grievously polluted. It is indeed a discouraging season—the exact image of the ungenial springs of our natural year. But after this, there comes, as it were, a second beginning of life, when principle takes the place of innocence; when thought and inquiry awaken; when, out of the mere chaos of boyhood, the elements of the future character of the man begin to appear. Blessed are they for whom the confusion and disarray of their boyish life is quickened into a true life by the moving of the Spirit of God! Blessed are they for whom the beginnings of thought and inquiry are the beginnings also of faith and love, when the new character receives, as it is forming, the Christian seed, and the man is also a Christian. And then, this second beginning of life, resting on faith and conscious principle, and not on mere passive innocence, stands sure for the middle and the end.”

I feel assured that the experience of Dr. Arnold, as to the results of academic life, under faithful discipline and instruction, has also been happily exemplified in the history of this Institution; and that the change which he so strikingly depicts, as witnessed in his own pupils, may be traced in the progress of every class that has been subjected to our discipline. I, too, have seen the modesty

and the purity of innocence gradually give way in the course of the first year, and changed into the roughness and waywardness and impurity which have marked the character of many a member of the third class. It has been at this critical culminating of the "knowledge of evil," that the discipline of the Institution has been most frequently exercised, and the patient labour of the teacher most earnestly called into requisition. But I, too, have seen a change take place, as the second class year advanced. There has been a gradual return to the primitive delicacy and purity and truthfulness; and these good qualities have not only matured in the *first-class-man* during his last year, but they have become "rooted in the character;" the early *habit* of virtue has been replaced by the settled *principle* of virtue; and the dangers of the "wilderness," which he has triumphantly passed through, have hardened and strengthened him for the pilgrimage of life now lying before him. Look at the class now presenting themselves for the honours of graduates of the Institution, and contrast them as they now appear with what they were two or three years ago; or contemplate the large second class, and see the characters it now presents, and remember what they were eighteen months ago, and all familiar with them will testify to the accuracy of the statement which I have made. But we have had more substantial grounds of encouragement still, founded upon considerations which have constituted the essential basis of the virtuous character to which I have referred. This Institution has graduated 330 members, exclusive of the present first class. Of these, eighty, or about *one-fourth of the whole number*, were professors of religion when they graduated; sixty of whom, that is, *three-fourths of all the communicants, and about one-fifth of all the graduates, made their first profession of religion during their cadet-life*—and not one graduate (exclusive of the first graduating class, of which I cannot speak positively) *has ever left the Institution, who was not, at the time of graduation, thoroughly convinced of the Divine Character of our Holy Religion*. May we not hope that "the second beginning of life," to which Dr. Arnold refers, rested, to many of these, on faith, as well as on conscious principle, and that the Christian seed received here, has been since developed in the formation of many a Christian character?

These facts are significant. They not only give encouragement and hope to those who have had, amidst much darkness and many clouds, to struggle on in the laborious duty of teaching and disciplining the young here, but they furnish the most satisfactory evidence of the soundness of the system of discipline which characterizes this Institution; and this would be made still more apparent if an analysis were made of the material of which it is usually composed. I am thoroughly persuaded that the system of government of a Military Institution, when combined with careful, systematic Bible instruction, furnishes the best possible instrumentality for the awakening and development of religious character. The community of life and sentiment which peculiarly characterizes a Military School, furnishes a powerful bond of sympathy for good as well as evil, and no one, acquainted with the growth of piety in military life, could fail

to have noticed this. But the minute regulations of a Military School, which are so often objected to by some, serve to promote this end in a variety of ways.

An eloquent divine (*Caird*) has said, that "one reason why the sinful man does not 'understand his errors' is, that *sin can be truly measured only when it is resisted*. It is impossible to estimate the strength of the principle of evil in the soul till we begin to struggle with it; and the careless or sinful man—the man who, by supposition, is not striving with, but succumbing to sin—cannot know its force. *So long as evil reigns unopposed within the soul, it will reign, in a great degree, unobserved*. So long as a man passively and thoughtlessly yields his will to the sway of worldly principles or unholy desires and habits, he is in no condition to measure their intensity—scarcely to discover their existence. For in this, as in many other cases, *resistance is the best measure of force*." And a greater than Caird has said, that "by the law is the knowledge of sin." "I had not known lust, except the law had said, thou shalt not covet." The vices, the irregularities, the follies and the errors of the young, are brought to light, made manifest to them in the forming period of their lives, by the regulations to which they are subjected, when opportunities and means may be availed of to correct them; and thus the regulation acts as a school-master, to discipline such before it is too late. We see the wisdom of this provision in the experience of those families in which the restraints of parental authority are exercised; and while sinful propensities are manifested here, as in all other instances in which *law* operates, the contrast is no less striking as to the results of such a system and of that of unrestrained indulgence. The parent in the latter case scarcely knows or is conscious of his son's danger. No law restraining him, the misguided youth is lost before he or his parents had realized that he was in danger. In the other case, the parent finds opposition and rebellion on the part of his child—a constant disposition to substitute his own for the parent's will—frequent attempts to escape the penalties of established rules, by evasions or false excuses; but he firmly, yet affectionately, enforces respect for his authority, and he enjoys, in after-life, the satisfaction of seeing that the beneficial effects of his discipline have been to form the character of his son, and he realizes in his success the fulfilment of the Divine promise: "*Train up a child in the way he should go, and when he is old he will not depart from it*." The training may have exhibited the evil propensities—the wrong tempers of the child—but, by and by, when he is old, he will profit by it.

INSPECTOR—EX-OFFICIO.

His Excellency JOHN LETCHER, Governor of Virginia.

BOARD OF VISITORS.

COL. PHILIP ST. GEO. COCKE, <i>President</i> ,	-	-	-	-	POWHATAN.
GEN. WM. H. RICHARDSON, <i>Adjutant General</i> , (EX-OFFICIO.)					
WM. McLAUGHLIN, Esq.,	-	-	-	-	ROCKBRIDGE.
JOHN ECHOLS, Esq.,	-	-	-	-	MONROE.
COL. THOMAS S. HAYMOND,	-	-	-	-	MARION.
DR. A. R. MEEM,	-	-	-	-	SHENANDOAH.
JOSEPH MAYO, Jr.,	-	-	-	-	WESTMORELAND.
JOHN C. MONCURE, Esq.,	-	-	-	-	STAFFORD.
R. H. DULANY, Esq.,	-	-	-	-	LOUDOUN.

ACADEMIC STAFF.

COL. FRANCIS H. SMITH, A. M., Superintendent and Professor of Mathematics and Moral Philosophy.

MAJOR S. CRUTCHFIELD, Adjunct Professor of Mathematics.

LIEUT. J. MCCAUSLAND, Assistant Professor of Mathematics and Assistant Instructor of Infantry Tactics.

LIEUT. J. H. CHENOWETH, Assistant Professor of Mathematics and Assistant Instructor of Artillery Tactics.

LIEUT. DANIEL TRUEHART, Assistant Professor of Mathematics and Assistant Instructor of Infantry Tactics.

MAJOR J. T. L. PRESTON, A. M., Professor of Latin and English Literature.

LIEUT. SCOTT SHIP, Assistant Professor of Latin—and Assistant Instructor of Infantry Tactics.

MAJOR T. H. WILLIAMSON, Professor of Engineering and Architecture, and Instructor of Drawing.

MAJOR WM. GILHAM, A. M., Professor of Chemistry, Mineralogy and Geology, Instructor of Infantry Tactics and Commandant of Cadets.

CAPTAIN M. B. HARDIN, Adjunct Professor of Chemistry, Mineralogy and Geology, and Assistant Commandant of Cadets.

MAJOR THOMAS J. JACKSON, Professor of Natural and Experimental Philosophy, and Instructor of Artillery.

MAJOR R. E. COLSTON, Professor of French Language, History and Political Economy, and acting Professor of Military History and Strategy.

LIEUT. O. C. HENDERSON, Assistant Professor of French Language and Assistant Instructor of Infantry Tactics.

ROBERT L. MADISON, M. D., Mercer Professor of Natural History.

NOTE.—The Board of Visitors, at their Annual Session, July 1860, organized into a separate department the duties of Commandant of Cadets, making him at the same time, Instructor of Infantry and Artillery Tactics, and Professor of Military History and Strategy, and will hold a special meeting on the 21st January, 1861, for the purpose of filling the office.

SCHOOL OF AGRICULTURE.

MAJOR WM. GILHAM, A. M., Professor of Agriculture.

ROBERT L. MADISON, M. D., Mercer Professor of Natural History, and Animal and Vegetable Physiology, applied to Agriculture.

SCHOOL OF CIVIL ENGINEERING.

MAJOR THOMAS H. WILLIAMSON, Professor of Civil Engineering, Architecture, Industrial Drawing and Topography.

MAJOR ROBERT E. RODES, Professor of Applied Mechanics.

SCHOOL OF FINE ARTS.

(Vacant.) Professor of Human, Animal and Landscape Drawing, Decoration, Architecture and Modelling.

MILITARY STAFF.

E. L. GRAHAM, M. D.,	-	-	-	Surgeon.
LIEUT. J. M. McCAUSLAND,	-	-	-	Adjutant.
CAPTAIN RICHARD H. CATLETT,	-	-	-	Treasurer and Quarter-Master.
CAPTAIN JOHN T. GIBBS,	-	-	-	Commissary and Steward.

SYNOPSIS

OF

Course of Studies in Academic School.

FIRST YEAR—FIFTH CLASS.

Arithmetic, (Smith and Duke's); Algebra, to Equations of 2nd Degree, (Smith's); Geometry, 3 Books, (Davies' Legendre); English Grammar, (Bullion); Geography, (Mitchell); French, (Gil Blas); and Bolmar's Levizac; Composition and Declamation.

SECOND YEAR—FOURTH CLASS.

Algebra, (Smith's); Geometry, Plane and Spherical Trigonometry, (Davies' Legendre); Descriptive Geometry, (Davies); Geography, (Mitchell); French, (Gil Blas, Picot, No. 5.); Pencil and Pen Drawing; Composition and Declamation.

THIRD YEAR—THIRD CLASS.

Analytical Geometry, (Smith's Biot); Shades, Shadows and Perspective, (Lectures); Surveying, (Davies); Differential and Integral Calculus, (Courtenay); French, (Pinney, Noël and Chapsal); Latin (Cæsar, Virgil, Horace and Cicero); Mechanical Drawing; Composition and Declamation.

FOURTH YEAR—SECOND CLASS.

Mechanics, (Bartlett's); Optics and Acoustics, (Bartlett's); Astronomy, (Bartlett's); Latin, (Livy—Terence); Chemistry, (Johnston's Turner); Infantry Tactics.

FIFTH YEAR—FIRST CLASS.

Civil Engineering and Architecture, (Lectures); Military Engineering, (Mahan); Human Physiology, (Kirke); Military History and Strategy, (Jomini's Summary of Art of War); Political Economy, (J. D. Say); Rhetoric, (Blair); Intellectual Philosophy, (Wayland); Logic, (Whately); Moral Philosophy, (Paley and Butler); Constitution of United States, (Shephard); Mineralogy, (Dana); Geology, (Gray and Adams); Infantry Tactics, (Hardee and Scott's Evolutions of the Line); Artillery Tactics and Gunnery, (U. S. Board of Officers and Benton).

NOTE.—Cadets on admission may enter the 5th, 4th, 3rd, or 2nd Class, according to qualification, upon examination—but no Cadet can enter a higher Class than the *Second*: and each Cadet is required to remain two years, unless sooner discharged. Practical instruction in the duties of the soldier and drill, daily—and specially, during the months of July and August, when the Cadets are *encamped*, and the regular Academic duties are suspended.

SYNOPSIS

OF

Course of Studies in Special School of Agriculture.

FIRST YEAR—JUNIOR CLASS.

Natural Philosophy, (Bartlett and Lardner); Chemistry, (Johnston's Turner); Mineralogy, (Dana's Manual); Geology, (Gray and Adams); Histology, Vegetable Physiology, Agricultural Botany, (Kirke's Manual of Physiology, Gray's Systematic and Structural Botany and Lectures); Zoology, (Agassiz and Gould's Zoology, Ruschenberger's Comparative Anatomy and Lectures).

SECOND YEAR—SENIOR CLASS.

Civil Engineering, applied to Farm Bridges, Roads, Drainage, Irrigation, &c., (Lectures); Field Fortification, (Mahan); Rural Architecture and Mechanical Drawing, (Downing); Anatomy and Physiology of Sub-Kingdom Vertebrata, (Carpenter's Comparative Physiology); Human Physiology, (Kirke); Hygiene and Dietetics, (Combe on Digestion); General Botany, (Gray's Systematic and Structural Botany); Animal Toxicology and Veterinary Practice, (Lectures); History, General Principles, Chemistry, Geology, Mechanics, and Domestic Economy of Agriculture, (Johnston and Norton's Scientific Agriculture and Lectures); Practical Agriculture, Meteorology, (Lectures); Constitution of United States, (Shepherd); Moral Philosophy, (Paley and Butler); Political Economy, (Say).

SYNOPSIS

OF

Course of Studies in Special School of Civil Engineering.

FIRST YEAR—JUNIOR CLASS.

Mechanics, (Bartlett); Acoustics and Optics, (Bartlett); Astronomy, (Bartlett); Chemistry, (Johnston's Turner); Mineralogy, (Dana's Manual); Geology, (Gray and Adams); Civil Engineering—Materials, Carpentry, Masonry, Tunneling, Mines, Surveying, Roads, Bridges, Canals, (Lectures and Drawings).

SECOND YEAR—SENIOR CLASS.

Applied Mechanics. 1st. *Hydraulics*. Flow of water through orifices, over wastes, through pipes, in Canals and Rivers; Discussion of best form of dams—of the best forms and useful effects of Hydraulic Machinery, such as water wheels, pumps, &c., (D'Aubuisson, Weisbach and Mary). 2nd. *Stability of Constructions and Dynamic Theory of Machines*. Moments of elasticity and inertia; Resistance and flexure of beams; Torsion of prisms; Friction and stiffness of cords, and their influence on the mechanical powers, (Morin and Weisbach). Hauling of vehicles on common and railroads; Stability of walls, and resistance to pressure of earth and water; Méry's method of calculating the stability of arches, and tracing the curve of pressure; Discussion of the stability and strength of various frames, such as roofs, trusses, &c., (Bow on Bracing); Calculation of stability, tension, &c., of Suspension Bridges, (Navier, Pont de Schorff, Annales des Ponts et Chaussées). Calculation of strength of Tubular Bridges, (Weisbach, Clark). Theory of steam machinery, resistance of cylinders to internal pressure, resistance of axels, &c., (De Pambour, Weisbach, Clapyron). Rivers, Docks, Harbors, &c., (Lectures and Drawing). Moral Philosophy, (Paley and Butler); Political Economy, (Say); Constitution of United States, (Shephard).

NOTE.—Any graduate of this Institution, or of any incorporated College or University, may become a member of the Junior or Senior Class of either of the *Special Schools*, as a resident graduate, without being subject to the discipline and duties which are prescribed for Cadets, upon the payment of the established fee for the School, and entering into an obligation to conform to such regulations as may be prescribed for the conduct of the same. All other candidates for admission into either of the Special Schools, must satisfy the Academic Board, upon examination, that they are qualified to prosecute the studies of the 2nd Class of the Academic Course; and such persons may become students of the *Junior Class* of either Special School, but shall be subject to all the discipline and military duties which attach to the Cadets.

It being the design of the Board of Visitors to maintain a high grade of scholarship in the Special Schools, no candidate will be admitted into either course except upon rigid examination and undoubted qualification of ability to prosecute, successfully, the prescribed courses.

 The manipulations in the laboratory, in the Department of Chemistry, Mineralogy, are very extensive, and afford full facilities to make the students *practical chemists*.

ESTIMATED ANNUAL EXPENSES

OF A

Pay Cadet at the Virginia Military Institute.

Tuition, - - - - -	\$60 00
Fee for Medical Attendance, - - - - -	5 00
Library Fee, - - - - -	2 00
Board for 12 months at \$11 per month, - - - - -	132 00
Washing, for 12 months, at \$1 50 per month, - - - - -	18 00
Fuel and Light, - - - - -	18 00
Room-Furniture and Servants, - - - - -	5 00
Books, (average) - - - - -	12 00
	<hr/>
	\$252 00

The estimated average annual cost of uniform and clothing is about \$125; but as Cadets vary so much in wear and tear of their clothing, and in the care which they take of it, the Institute does not bind itself that this estimate shall not be exceeded. The estimate is founded upon long experience, and is believed to be fully sufficient; while constant supervision is exercised over the expenses to guard against excessive or wasteful extravagance, by a regulation which makes the Institute supply the clothing at cost, and permits no article to be issued to any Cadet except upon the order of the Superintendent.

☞ The fees for tuition and medical attendance are required to be paid in advance; and a deposit is also required to be made semi-annually in advance, sufficient to cover the expenses of the Cadet for six months.

☞ Should a Cadet leave the Institute before the expiration of the period for which he has made an advance, the unexpended balance is refunded to him, *except the fees for tuition and medical attendance*, which are in all cases retained.

☞ An additional fee of \$40 is charged to each *pay Cadet* appointed from other States, as an equivalent for the use of public rooms.

ROLL OF THE CADETS,

ARRANGED

ACCORDING TO MERIT IN CONDUCT,

For the Year ending June 30, 1860.

EXPLANATION OF THE CONDUCT ROLL.

The Conduct Roll is compiled from a record of all irregularities and violations of the Code of Discipline, established for the government of the Cadets.

The various prohibitions and requirements in the system of discipline enjoined by this Code, are divided into eight grades; each grade comprising offences of the same degree, in a moral and military point of view; and to each grade a number is attached of the demerit to be recorded for offences contained therein.

The *demerit* to be recorded for offences of each of these eight grades is as follows:

For offences of the 1st grade, 10 demerit.

“	“	2d	“	8	“
“	“	3d	“	6	“
“	“	4th	“	5	“
“	“	5th	“	4	“
“	“	6th	“	3	“
“	“	7th	“	2	“
“	“	8th	“	1	“

For example:

Mutinous conduct is	-	-	-	10 demerit.
Going beyond prescribed limits is	-	-	-	8 “
Absence from a drill is	-	-	-	6 “
Visiting in study hours is	-	-	-	5 “
Neglect of studies is	-	-	-	4 “
Idleness in academy is	-	-	-	3 “
Inattention under arms is	-	-	-	2 “
Late at roll-call is	-	-	-	1 “

For each year (after the first) that a Cadet may be a member of the Institution his offences are made to count more, by increasing the amount of his demerit one-sixth for his second, one-third for his third, and one-half for his fourth year.

On the 1st of July annually, the numbers attached to the offences recorded against each Cadet are added up, and the sum thus obtained is that found in the column of “Demerit,” in the annexed Conduct Roll.

Any Cadet who shall, at the examination in June and January, have an amount of demerit exceeding one hundred for the previous six months, such Cadet is declared *deficient* in conduct, and recommended by the Academic Board to the Board of Visitors for discharge.

ROLL OF CADETS,
ARRANGED ACCORDING TO MERIT IN CONDUCT,
For the Year ending July 1st, 1860.

Names marked thus [*] most distinguished of their class—those with [†] signify death.

NOTE.—Graduates are requested to notify the Superintendent of any errors in the above Catalogue.

‡ Cadet E. J. Harvie having been appointed a Lieutenant in the U. S. Army, a short time before his class graduated, but having completed the studies of his class, he was graduated without class standing.

It is desired to make the next Register as perfect as possible, every graduate, therefore, who may receive a copy of this Register, will please make known to the Superintendent his present occupation and residence.

The numbers in the column—"Graduation Number"—represent the class grade on graduation, and are to be compared only as between the members of the *same class*. The *maximum* standard varies from year to year.

VIRGINIA MILITARY INSTITUTE,

LEXINGTON, Va., July 4th, 1860,

By Order of COL. FRANCIS H. SMITH,

J. McCAUSLAND, ADJ'T V. M. I.
